

NEED HELP?

**METRICI SHIP DETECTION AND
CLASSIFICATION FOR BETTER
MARINA MANAGEMENT**

**Let us show you what we can do for you and your marina.
Let us show you what we can do for their ships.**

SOLUTIONS

Ease the life of marina operators as well as for skippers. Metricici keeps track of traffic activity and available docking spots in any marina. Use one camera to monitor dozens of boat docks. Guide clients to available ones through displays or GPS alerts. Count and know all the time the status of any boat docks, an area or entire location. Generate detailed graphics and interconnected reports. Count traffic in and out.

DESIGN

- Standard solution or tailored one for any kind of request
- Dynamic billing differentiated on ship size, ship classification, time of stay, time of arrival
- Cloud or local database
- Work with any IP cameras

DEVELOPMENT

- Reserve boat docks
- Permanent tenants
- SMS billing and alerts integration
- 24/7 marina monitor

STATISTICS AND REPORTS

- Boat traffic
- Time tables
- Occupancy level for any time interval
- Rush hours or not
- Frequent visitors

ALERTS

- Full or almost full port
- Long stay - more than...
- Available spot
- Unauthorized entry
- Forbidden ship
- Ship not paid
- Occupied space

USER FRIENDLY METRICI INTERFACE OR THIRD PARTY INTEGRATION

Metrici recognizes for you any kind of ship in a video stream, also detects if a docking spot is busy or available and reports this to a complex but easy to use interface. Also one can integrate data with other third-party management systems, billing software or mobile applications. Entries and exits flow: who, what, when, where

Details

Calculation and display for total number of free/busy docks for each camera, group, section or for the entire location

Statistics

See how the marina performs over time. Generate and export reports for any time interval

Smart management

Real time calculation with the load percentage and changes in the marina

Client satisfaction

Guidance to a free docking place. Automated billing. SMS, GPS or Apps integration at hand

Easy operations

Records every single change in the marina. Events database with photo and time stamps

Customize

Do you need any special feature that is not already included? Metrici can personalize the software
